# AV30-RETARDING

## TRANSPARENT LIQUID RETARDANT

### Features

AV30-RETARDING has the characteristic of delaying the POT LIFE or workability time from 10-14 minutes typical of the product to longer times.

AV30-RETARDING does not affect the extraction times which therefore remain unchanged once the reaction is triggered.

AV30-RETARDING leaves unaltered the mechanical and resistance characteristics of Veltman synthetic plasters.

AV30-RETARDING is colorless.

Percentages of use AV30-RETARDANT: we recommend a use between 10 and 30 g / liter (to be calculated on the weight of the mixing water).

The above recommendations are provided to the best of our knowledge, after careful consideration. We guarantee the quality of our products according to our specifications. Any further liability cannot be accepted as the correct application of our products is beyond our control.
